Totals by island include first and second port of entry ship calls. Total ship calls for the U.S.V.I. include the first territorial port of entry only; ships visiting more than one U.S. Virgin Island during the same cruise are only counted once in the U.S.V.I. total. Consequently, the U.S.V.I. total will always be less than or equal to the sum of the two island totals as indicated. **Please be advised that this data is subject to revision.**
